## Project Design Phase-II Solution Requirements (Functional & Non-functional)

| Date          | 03 October 2022  |
|---------------|--|
| Team ID       | PNT2022TMID48980   |
| Project Name  | Project - IOT Based Safety Gadget for Child Safety Monitoring & Notification |
| Maximum Marks | 4 Marks  |

## **Functional Requirements:**

Following are the functional requirements of the proposed solution.

| FR No. | Functional Requirement (Epic) | Sub Requirement (Story / Sub-Task)                                   |
|--------|-------------------------------|--|
| FR-1   | User Registration             | Registration through Form<br>Registration through Gmail              |
| FR-2   | User Confirmation             | Confirmation via Mail<br>Confirmation via OTP                        |
| FR-3   | User Notification             | Notification to registered Mobile number<br>Notification via message |
| FR-4   | User location check           | Check through account  |

## **Non-functional Requirements:**

Following are the non-functional requirements of the proposed solution.

| FR No. | Non-Functional Requirement | Description  |
|--------|----------------------------|--|
| NFR-1  | Usability                  | Allows parents to keep a track of their child's location and also, help them raise an alarm in case of an emergency. |
| NFR-2  | Security                   | Creates a secure environment for child to move around.   |
| NFR-3  | Reliability                | Increased reliability towards technology and reduced reliability towards guardians.                                  |
| NFR-4  | Performance                | High performance in terms of simple usage and security.  |
| NFR-5  | Availability               | Any time usage backed up by power supply.  |
| NFR-6  | Scalability                | High level with increase in performance.   |
